

Early last December we checked up on our carpentry instructor from the Technical School we all started in 2018. As we contacted Monfort, we learned that abdominal problems that began almost two years earlier had progressed to a health care emergency for him in Haiti. The doctors in Haiti had misdiagnosed and prescribed a medicine that had damaged his kidney function. We decided with Monfort to access a hospital in Santo Domingo, Dominican Republic. Monfort has been and will continue to be treated as outpatient which means he must pay for housing on the hospital complex, food, cell service, and for a Spanish speaking Haitian interpreter. After Monfort arrived in the Dominican he began tests and treatment. His vision had been greatly impaired so he was able to get prescription glasses and medicated eye drops. One problem solved. The tests resulted in an outlined plan for a three month treatment plan, which including the doctor is \$5,000.00. The three month housing, food, travel, and interpretation needed is about \$1050.00. These total about \$6000, many of you through the compassion of Christ have provided \$4,700.00. leaving a funding balance of \$1,300.00 for the treatment plus housing. Treatment now begins on January 25th. Please consider this **lifesaving opportunity** to help Monfort.

Empowering Partners is eager to re-engage in Haiti!

As Crosspoint Church sent out Dan and Madel Beck, life and service in Haiti grew more difficult as instability in Haiti grew along with the presence of Covid in the world. A new group Empowering Partners Inc. was formed with the approval of Crosspoint leadership in an effort

to better serve the “great commission” in the world. To learn more about who, why, what, and how... visit: empoweringpartners.org

Serving Together: Our Partnership is Essential!

What’s Needed...

Discipleship

Mini Projector (ie.Viewsonic M1 \$299.00) or equiv. required @ all disciplines.

Carpentry Tools

We will be completing construction of the new Community Center at NRH prior to any Carpentry trade instruction. However some tools are required to fabricate our sewing and discipleship desks and assorted other projects. We will be using cordless tools for the most part... our current priorities are:

DeWalt Cordless Tool Kits such as the DCK694P2 20V MAX XR (R) features 6 cordless tools. \$ 892.00+/- An additional 5.0Ah 2pack batteries \$219.00 will compliment and complete this set. You can also donate toward this @
